Professional Summary

Motivated and detail-oriented Java Developer with 1+ years of hands-on experience in designing, developing, and maintaining scalable Java-based applications. Proficient in Java 8 features, Spring Boot, RESTful APIs, Hibernate, and database technologies. Passionate about writing clean, efficient code and solving real-world problems. Seeking challenging backend development roles in dynamic, growth-oriented environments.

Technical Skills

Backend:	Java 8, Spring Boot, Hibernate, RESTful APIs
Tools/Frameworks:	Eclipse, Postman, Swagger, Maven, Git
Database:	MySQL
Testing:	Unit Testing, Automation Basics
Other:	JSON, XML, Agile Methodology
Languages:	English, Hindi

Work Experience

Java Developer :-

Tata Consultancy Services (TCS) | Jan 2024 – Present

- Developed and maintained scalable, secure, and efficient Java-based backend systems.
- Built REST APIs using Spring Boot to support frontend modules and third-party integrations.
- Participated in code reviews, unit testing, and debugging activities to ensure high-quality deliverables.
- Collaborated with cross-functional teams using Agile methodologies and tools.

QA Engineer :-

Tata Consultancy Services (TCS) | Oct 2021 – Jan 2024

- Worked on automation tools and frameworks for testing enterprise applications.
- Gained experience in quality assurance processes and scripting automated tests.
- Supported test planning, execution, and reporting efforts in Agile projects.

Education

B.E. in Computer Science

Atria Institute of Technology, Bangalore | 2021

Grade: 6.8/10

Projects

Bug Tracking Application :-

- Backend-driven application with modules: Bug, Application, and Release.
- Used Swagger and Postman to send JSON data for DB operations.
- Implemented RESTful API endpoints and entity relationships using Hibernate and MySQL.
